signature Khondker

Students using testing services through Accommodative Services may need to arrange alternate start times in order to allow them to use extended time during final exams.

We have suggested alternate exam starting times (with the intention of being the least disruptive to the student exam schedule) in order to allow students adequate testing time. We request that professors review the suggestions and authorize the time/date change with their signature. For early start times, professors may request that students remain in our testing area until the remainder of the class begins the exam at the scheduled start time.

Proctors are available until 11:00 p.m. during final exams. **All evening exams must begin by 5:00 p.m. during final exam week in order to allow students extended time.**
